FORUM: Fourth Committee of the General Assembly

QUESTION OF: Protection of inhabitants of the Central African Republic concerning rebels

SUBMITTER: The People's Republic of China

THE FOURTH COMMITTEE OF THE GENERAL ASSEMBLY,

*Deeply concerned* that children are involved as soldiers and rebels in armed conflicts in African countries,

*Fully alarmed* by the deaths of innocent civilians also including children and women,

*Realizing* that more than 200,000 inhabitants have fled and are living under inhuman living conditions such as suffering from food shortages,

*Deeply disturbed* by the fact that neither the government nor the rebels stick to the signed peace agreements which resulted from the Central African Republic Bush War that ended in 2007 in order to establish a peaceful- living together-side by side,

*Keeping in mind* that there is no elected and stable government in the Central African Republic (CAR ) due to the fact that the former president Francois Bozizè fled the country and Seleka leader Michel Djotodia took over the country's governance,

*Believing* the rebels could be an example for other country's rebels and this could lead to other revolutions and civil wars,

*Having studied* Human Rights Watch reports which show infringements committed by the Seleka rebels such as abuse of women, pillage, rape, executions and torture,
